The All-in-One Fix

Boost your Baskets

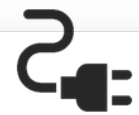

Actively drives a **+4% increase** in basket value by picking the right product for the specific customer.

Unlock your Audience

Delivers deep customer insights using **450+** visual attributes and unlocks data monetization.

How It Works: 4 Steps to Smart Screens

Plug & Play System

Connect a hardware device the size of a deck of cards. No need to replace your current screen network.

◆ 5min installation

Sees the Audience

The AI goes beyond basic demographics, actively analyzing clothing, personal items, and current basket contents.

◆ 450+ visual attributes

Personalizes Ad

In just 1.6s from customer detection, the system picks the right product and generate custom ad for the specific customer.

◆ 1.6s response time

Deliveres Insights

The system learns itself from the real data, delivering 24/7 deep customer insights so you know exactly what drives sales.

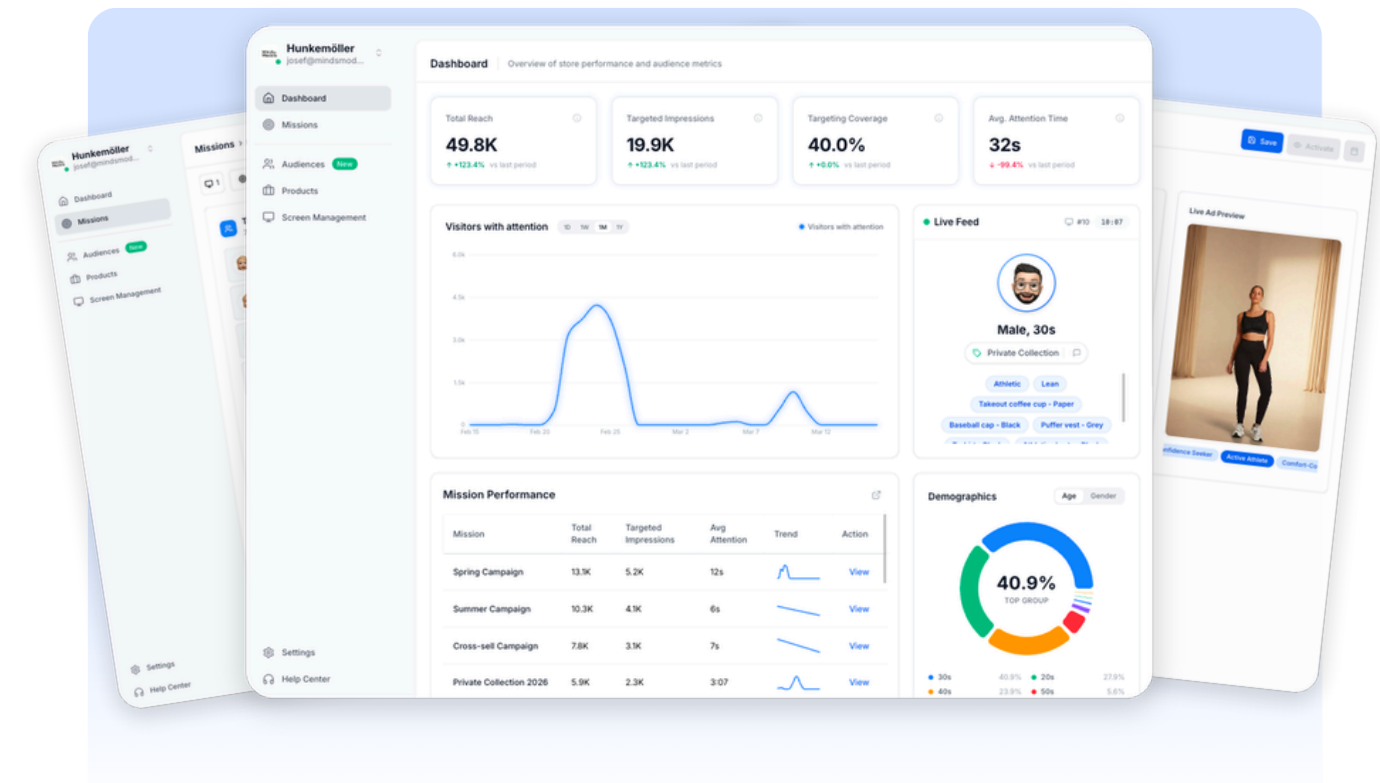

◆ 24/7 deep insights

Smart Hardware. Actionable Software.

Plug&Play Device

Easy to integrate camera + pocket-sized computer that makes **any digital signage smart** analyzing customer's **visual context** and playing relevant media.

Dashboard & CMS

One unified dashboard for customer **analytics**, campaign performance **tracking**, and screen network **management**.

Uncover Data for Every Customer

Shopper Persona
