

Online-grade behavioral data. Now from physical stores.

We analyze **visual data** from in-store cameras and match it to every receipt. Panels like NielsenIQ tell brands what sold. **We show them who bought it.**

TRADITIONAL MEASUREMENT

What sold.

Receipts, panels and loyalty cards. No person attached.

MINDS & MODELS

Who bought it.

Visual data analysis of every shopper, matched to the receipt.

FOR RETAILERS

Get paid for your shopper data.

- ✓ Zero investment, zero risk
- ✓ Your own data, first and free
- ✓ Runs on existing infrastructure

FOR BRANDS

See who buys, not just what sold.

- ✓ Observed, not surveyed
- ✓ Segments to brief media and shelf
- ✓ Deeper with every chain that joins

88

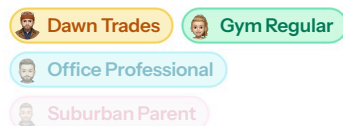

Attributes per shopper
