3.3 In performing this Order the Provider processes no personal data on the Customer's behalf. No separate data processing agreement is therefore required.

3.4 What the Study is not. The Study is not a market measurement and not a benchmark. It is built on one retail chain and is therefore a **channel read**, not a market average. The Provider does not and will not present comparisons at the level of individual competing brands until at least two chains in the Competitive Set are instrumented. Any figure that is not measured is expressly labelled as modelled in every output.

4. Price and payment

4.1 The price of the Study is **CZK 300,000** excluding VAT. VAT is added at the statutory rate.

4.2 The price is payable against an invoice issued after delivery of the Study, due **30 days** from the date of issue.

4.3 Credit against the annual subscription. If the Customer signs an order for a 2027 annual category read subscription either together with this Order or by 31 December 2026, **the full price of the Study** is credited against the first-year subscription fee.

4.4 The price of the Study is not refundable once the Study has been delivered. The density provisions of the subscription order do not apply to this Order.

5. Timing and condition precedent

5.1 The Provider will deliver the Study within **4 weeks** of the date on which the agreement between the Provider and the Chain permitting the Provider to supply data within the Scope ("Data Agreement") comes into force.

5.2 If the Data Agreement has not come into force by **31 March 2027**, this Order lapses automatically. Neither party owes the other any performance or compensation.

5.3 The Provider will report the status of the Data Agreement to the Customer at least monthly.

6. Use of outputs

6.1 The Customer may use the Study for its own internal purposes and may disclose it to **one named agency**: {{agency}}, on the same terms.

6.2 Publication of any figure from the Study requires the Provider's prior written consent.

7. General

7.1 The Provider's liability is capped at the amount actually paid under this Order. This cap does not apply to the extent the law does not permit liability to be limited by contract.

7.2 The Provider is responsible for the method and for delivery of the Study. It gives **no warranty of end-to-end anonymisation** and no warranty of commercial outcomes.

7.3 Governing law: Czech law. Jurisdiction: the courts of Prague.

7.4 This Order exists in Czech and English versions. The version actually signed prevails.
