

Turn the shoppers at your shelf into basket, margin, and new revenue.

We cluster every visitor by what we can **see** and link it to what they **buy** at the till, so you act on real demand instead of guesswork. No new hardware, live in your category today.

THREE WAYS IT MOVES YOUR P&L

+31%

Bigger baskets

REVENUE

Every cluster sees what it actually buys, at the shelf. More units per visit, no extra footfall.

-18%

Sharper assortment

DEAD STOCK

Stock and space matched to who really converts, by store and daypart. Less dead stock.
